

“The Frobenius problem for Mersenne numerical semigroups”

M. B. Branco

Departamento de Matemática

Universidade de Évora

mbb@uevora.pt

In this talk , we give formulas for the embedding dimension, the Frobenius number, the type and the genus for a numerical semigroups generated by the Mersenne numbers greater than or equal to a given Mersenne number.

Joint work with J.C.Rosales and D. Torrão.
